# CROSS FLOW AIR CURTAIN

**Warranty one year for product ,Warranty five years for motor**

- **Aesthetic arc panel design:** flow panel design, adopting hexagonal holes & rounded rectangle punching, larger air inlet and stronger panel rigidity.
- **Integrated air duct design:** the air outlet is stable, the air speed decays slowly, and the air curtain effect is more significant;
- **High-efficiency motor:** using independent R&D and self-produced motor, strong power, low noise and reliable performance;
- **Multi control modes:** adopt remote control and manual button mode, the operation is more convenient, standard 2-speed wind speed, can be 3 speeds for option, suitable for use in a variety of places;
- **Intelligent magnetic door switch (optional):** realize the humanized control of door opening and closing, greatly reduce the outflow of indoor air, and save more energy.
